

## RETINOPATHY OF PREMATURITY (RoP)

One of the leading Cause of Blindness in Children

## **Timing of Screening:**

- First screening at 3-4 weeks of birth by Ophthalmologist
  - Periodic evaluation of retina till 45 weeks

## **Treatment As Soon As Possible**

- · 90% infants with mild RoP No treatment required
- Others may need Laser Therapy/Anti VEGF Therapy (Injection)
